

## 9<sup>th</sup> South-East Europe Design Automation, Computer Engineering, Computer Networks and Social Media Conference

# SEEDA-CECNSM 2024

September 20-22, 2024, Egaleo, Greece

<http://seeda2024.uniwa.gr/>

The 9<sup>th</sup> South-East Europe Design Automation, Computer Engineering, Computer Networks and Social Media Conference (SEEDA-CECNSM 2024), in its 9<sup>th</sup> year, will provide an insight into the unique world stemming from the interaction between the fields of computer engineering, networks and Design Automation. SEEDA-CECNSM 2024 will provide an international technical forum for experts from the engineering industry and academia to exchange ideas, innovations, and present results of on-going research in the most state-of-the-art areas.

The 9<sup>th</sup> SEEDA-CECNSM conference will be held in **Egaleo, Greece** between **September 20<sup>th</sup>-22<sup>nd</sup>, 2024** and it will be hosted by the **University of West Attica** (<https://www.uniwa.gr/en/>)

### Virtual/Online Presentation

Kindly note that after several requests, SEEDA-CECNSM 2024 will provide a **MS Teams** conference meeting option for **real-time online (remote) presentation** of authors' work. More details will be provided to accepted paper authors upon programme finalization.

### Aim and topics

SEEDA-CECNSM 2024 aims to address several issues and topics of interest include, but are not limited to:

#### **Design Automation (DA)**

- Artificial Intelligence and Applications
- Backend Silicon Tools and Methodologies
- CAD Tools and Algorithms
- Characterisation and Timing Simulation
- Design for Low Power
- Design Optimization and Implementation
- ESL Methodologies and EDA Tools
- FPGAs, ASICs, ASIPs and SoCs
- Numerical and Scientific Computation
- Open-Source Tools
- Placement & Routing
- Rapid Prototyping and Hardware/Software Co-verification and Co-design
- Silicon Device Level Research
- System-Level and High-Level Synthesis
- VLSI and Digital Design and Design for Test
- Reconfigurable computing and FPGA-based acceleration
- Approximate computing
- System level and architecture level

#### dependability

- Safe and secure embedded systems

#### **Computer Networks and Communications**

- Advances in Internet Protocols
- Cloud and Fog Computing
- Intelligent Agents and Distributed Computing
- Internet of Things and Smart Cities
- Internet Services and Applications
- Management of Telecommunications and Networks
- Mobile, Ad Hoc and Sensor Network Optimization and Management
- Security and Privacy
- Ubiquitous Computing, Services and Applications
- Web Services and Service Oriented Architectures
- Wireless, Cellular, and Mobile Communications

### Computer Engineering

- Computer Architecture and Design
- Formal Methods in Architecture Design
- Computer-Aided Architecture Design and Implementation
- Embedded Systems and Applications
- Multi-core VLSI/ULSI Design
- Parallel and other Advanced Architectures
- Distributed Computing
- Memory and Storage Systems
- Parallel programming, parallel computing and ILP
- Advanced I/O device design
- Human-Computer Interaction
- Embedded and Cyber-Physical Systems
- Industrial informatics
- Heterogeneous many/multi-core computing

### Social Media and e-technologies

- Active and Collaborative Learning
- Advances in e-Energy Design and Development
- Digital Media Technologies
- e-Commerce and e-Services
- Economic and Regulatory Issues
- e-Government Issues
- e-Health Technologies and Applications
- Game-Based Learning for Engineering Education
- Image Processing and Visualization
- Social Networks in Education
- Social Networks, Crowdsourcing, and Crowdsensing

### Important dates:

Submission of full papers:	<b>(ultimate extension) 12 June 2024</b>
Notification of acceptance:	26 June 2024
Submission of camera ready:	10 July 2024
Main Conference:	20-22 September 2024

### Proceedings/Publications

All papers *presented* at the conference will be included into **IEEE Xplore** subject to meeting IEEE Xplore's scope and quality requirements. Apart from that, all SEEDA-CECNSM conference proceedings have always been indexed by **dblp** and **Scopus**. Extended versions of selected papers will be included either in an **Edited Volume** or in an international **Journal Special Issue** to be announced during the conference.
